ANNUAL REPORT OF MINING OPERATIONS

The informational requirements of this form are based on provisions of the Mined Land Reclamation Act, Title 40-8, Utah Code Annotated 1953, as amended, and the General Rules as promulgated under the Utah Minerals Regulatory Program. An operator conducting mining operations under a Notice of Intention must file an annual operations and progress report (FORM MR-AR) with the Division.

I. GENERAL INFORMATION

1. Report Time Period: From (mo./yr.) Dec. 88 To (mo./yr.) Dec. 89
2. DOGM File Number (original notice): S / 047 / 036
3. Mine Name: Cameron #1
4. Mineral(s) Mined: Bituminous Sandstone
5. Name of Operator or Company: The Native Asphalt Company
6. Permanent Address: 1750 University Club Building
136 East South Temple
Salt Lake City, Utah 84111
7. Company Representative (or designated operator):
Name: Mark F. Lindsey
Title: Secretary/Treasurer
Address: 1750 University Club Building- SLC, UT 84111
Phone: (801) 532-7510

☐ Please check if any of the above information has changed since previous year.

II. MINING AND RECLAMATION

1. Was the mine active during the past year? Yes ☒ No ☐
2. If active, how much ore or mineral was mined? 20,000 tons

3. Briefly describe any new or additional surface disturbances that occurred during the past year. This description should include the type of work performed, volume of material moved, and the acreage affected.

The tar sand site was enlarged by .5 acres and the sand was mined
to a depth of 15 feet. Drilling and blasting techniques were used
to loosen the material which was loaded out by front end loaders.
Total material moved - 20,000 tons.

4. Briefly describe the reclamation work performed during the past year. This description should include acreage reclaimed, methods employed, and an evaluation of the results.

The aggregate area was recontoured in November and ready to be
planted. Crushing areas were also recontoured but will not be
replanted at this time.

5. What was the total unreclaimed acreage at years end? four (4) acres

6. Briefly summarize mining and reclamation planned for the upcoming year.
The mining of additional tar sand should not increase the size of

the mine area but will take the floor from an average of 10-15 feet to
15 and 20 feet.

NOTE: Section III., "Additional Information" applies only to large mining
operations.

III. ADDITIONAL INFORMATION

1. An updated surface facilities map should be attached if there have been significant changes since the previous map was submitted.
2. Any monitoring results or other reports that are required under the terms of the approved notice of intention should also be attached.

IV. SIGNATURE REQUIREMENT

I hereby certify that the foregoing is true and correct.

Signature of Operator:

Mark F. Lindsey

Name (Typed or Print):

MARK F. LINDSEY

Title of Operator:

Secretary/Treasurer

Date:
